

Abnormally shaped RBC and associated diseases

| Abnormal shape | Morphology | Associated diseases |
|----------------|------------|---------------------|
| Spherocytes | | |
| Ovalocytes | | |
| Elliptocytes | | |
| Target cells | | |
| Teardrop cells | | |
| Schistocytes | | |

| | | |
|----------------------|--|--|
| Acanthocytes | | |
| Stomatocytes | | |
| Burr cells | | |
| Sickle cells | | |
| Red cell agglutinate | | |
| Rouleaux Formation | | |
| Howell-Jolly bodies | | |

| | | |
|----------------------|--|--|
| Pappenheimer bodies | | |
| Basophilic stippling | | |
| Heinz bodies | | |
| Cabbot's ring | | |
| Parasites | | |
| Organisms | | |
